# COMPANY PROFILE

Zhongci Health Technology Industry Group was founded in 2003 and currently has 7 core industry chain enterprise members, forming a closed-loop development model for the entire industry chain. On September 10, 2003, the first trade service company was established: Guangzhou Shuangma Biotechnology Co., Ltd. After nearly 22 years of experience in the big health industry, the group has developed into a national high-tech enterprise system group integrating research and development, production, and sales! As a national high-tech enterprise, Zhongci Health Products Technology Development Co., Ltd., a subsidiary of the group, has vigorously developed technology investment in the health industry and scientific research and development of health functional products in recent years. It has also achieved strategic goals such as strategic cooperation and R&D project investment with more than 10 top research institutions across the country. In the field of big health, it has formed a unicorn enterprise in the segmented field, laying a solid foundation, with more than ten invention patents, dozens of utility model patents, leading research and development innovation capabilities in the industry, and synchronizing international technological innovation. Form a high-tech enterprise cluster driven by research and development, integrating science, industry, and trade.

The group has been committed to the research and development of high-tech, effective, and popular products. A newly built 10000 square meter visual 100000 level GMP production base has been put into use; The company invested millions of yuan to establish Zhongjian (Guangzhou) Biomedical Research Institute in Luogang, Guangzhou, to further research and develop cutting-edge technologies such as small molecule peptides, and to deposit patented technologies; To enhance the experience of market customers, the company has invested millions of yuan in the Huadu headquarters to build the Zhongci Targeted Peptide Experience Science Popularization Hall, which can accommodate nearly 200 VIP customers for experience; The production workshop is equipped with advanced production equipment and quality assurance testing equipment at home and abroad. The company mainly has several dosage forms such as tablets, powders, granules, gummies, liquids, and hard capsules.

Formulation includes: health food/functional food/regular food/special medical special dietary food and other full category product structures, all of which can be customized OEM/ODM. The current annual production capacity of compressed candies can reach 1 billion pieces, and the solid preparation design capacity can reach 500 million bags. There are 5 fully automatic production lines! The annual production of powders and granules can both reach over 300 tons. The company adheres to the business philosophy of being solid, strong, expanding, doing well, and growing, and strives to build advanced health food research and production bases at home and abroad. Provide one-stop OEM/ODM processing services to every customer with care. Company Core Values: Global Life, Nutrition, and Health! Connect every family in the world with health!

# QUALIFICATION HONOR

It has a number of national invention patents and production patents

# HARD CAPSULE OEM

- Fully automatic production line
- Daily output 5 million pcs
- Complete specifications and equipped with various molds
  Provide various process formulas
- High pass rate, reduce production loss
  Years of production experience
- Provide complete production data

ZHONGCI HEALTH PRODUCTS TECHNOLOGY DEVELOPMENT CO.. LTD

- Fully automatic filling machine
- Daily production of 3.5 million capsules
- 100000 level clean workshop
- High qualification rate and low loss KANG
- Improve the process
- Provide high-quality plant capsules

ZHONGCI HEALTH PRODUCTS TECHNOLOGY DEVELOPMENT CO.. LTD

# COMPRESSED CANDY OEM

Our company has mature process formulas that can directly provide samples to customers. If the formula needs to be modified, it will be modified according to the customer's needs and technolo-gy, and then samples will be provided to the customer. If it is the customer's own formula, we can provide you with technical confidentiality, conduct technical audits and adjustments according to 0G corresponding regulations, and then send samples to the customer.

First-class productionequipment and sophisticated productiontechnology ensure the best nutritional content of the product.

Various shapes, various tastes, and various mature craft formulas can be formulated according to customer requirements to produce various colors and fragrances.

# CAPSULE COLLECTION

**Ashwagandha:** also known as indian ginseng (Ashwagandha), is also called winter cherry, hypnotinightshade. Although its scientific name is "Ashwagandha", it is actually an authentic medicinal material that is native to India and can be seen everywhere. Ashwagandha is recognized for its significantantioxidant capacity and immune-boosting properties. Additionally, ashwagandha has been used toinduce sleep. Ashwaglandha contains alkaloids,steroidal lactones, ashwagandhalide and iron. Alkaloids have the functions of calming pain and lowering blood pressure. Ashwagandha has anti-inflammatory effects and can inhibit the growth of cancer cells. it can also be used for chronic Inflammation such as lupus and rheumatoid arthritis, reduce leucorrhea,improve sexual function, etc.. and alsohelp the rehabilitation of chronic diseases.

**Shilajit :** Formulated with 100% pure Shilajit extract, a natural substance most commonly found in the Himalayas. Shilajit helps boost energy and endurance. Shilajit capsules boost metabolism and improve immunity. Regular usage keeps infections at bay. Widely acclaimed for its amazing natural properties, Shilajit fights chronic fatigue and promotes energy, vitality, and vigor in our body. The fulvic acid in Shilajit is a powerful antioxidant that slows down aging, eliminates the formation of free radicals, and prevents anemia, which is the cause of many diseases. Daily consumption of this purest super herb eliminates stress and anxiety, improves joint flexibility, and maintains blood sugar levels. To help you take care of your daily health needs.

**Maca:** is the rhizome of the cruciferous plant Maka, also known as beetroot or Peruvian ginsena. It isnative to the Andes Plateau of South America and has short conical fleshy roots with a purple, creamor yellow outer skin. Experiments have shown that Maka can improve sexual function parameters andenhance sexual behavior, but the mechanism by which Maka improves sexual function is not vet clealMarka is rich in alkaloids arginine and fructose, Alkaloids can stimulate the reproductive system ancdouble the number of sperm, while arginine is an important component of amino acids in spermwhich can enhance sperm activity.

**B-nicotinamide mononucleotide:** It is a naturally occurring biologically active nucleotide,C1H1sN20BNMN transform into NAD+, and the lack of NAD+is closely related to a variety of pathologies, includingtype 2 diabetes, obesity, heart failure, Alzheimer's disease, cerebral ischemia, and beneficial liverfibers, The world's laraest biomedical literature database,Pubmed, Wikipedia, and famous works oltraditional Chinese medicine. Origins: in 2013, Professor David Sinclair of Harvard Medical Schoolfound through experiments that NMN can be directly converted into NAD+international authoritative scientific iournals such as "cel" "Nature" and "Science".
